### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Robin Sannes on March 29, 2007.

The application has been amended as follows:

Claim 1, line 4 and claim 12, line 4, and claim 17, line 4, "being" has been changed to – adapted to be--.

Claim 1, line 5, claim 7, line 3, claim 12, line 5, and claim 17, line 5, after "being", -- operatively connected to a connector that is—has been inserted.

The following is an examiner's statement of reasons for allowance: for claims 1, 7, 12, 17, it is the inclusion of the lifeline having a connecting end operatively connected to a connector that is releasably connectable to a user, an intermediate portion wherein slack of the lifeline is there proximate, and an elastic member/means for providing tension that interconnects the retracting end and connecting end and also provides tension on the lifeline and preventing the drum from retracting the lifeline when the connecting end rebounds in an upward direction. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.
